

PETER PILOTTO

London, the 21th of February

Recommandation letter for Ella Krispel.

To whom it may concern,

Ella Krispel was print designer in the Peter Pilotto design team since two years when I arrived to take in charge the print department in February 2019.

We used to work together for one year and during this time Ella proved being a strong help in the management of the Print process from colours/ prints researchs to the technical aspects of the production files and colour calibration for the mills.

She showed a very strong sense of colour, composition and a highly sophisticated hand for drawing. She did stunning visual researchs for different product ranges we developed together; from a capsule collection of screen-printing tee-shirt to new technics of printing on different fabrics just to name a few... She worked on various prints repetitions, placements artworks and also production process with an great sense of organisation and communication.

Being part of a small team in a highly creative environment, Ella helped to maintain the pace and the workflow in a really calm and positive way; she showed tremendous initiative in creating a smooth working process and had really good ideas to organise and improve existing methods.

She has always proven to be competent, always willing to learn, hardworking and a loyal team player.

I highly recommend Ella Krispel without any reservation

Please do not hesitate to contact me for further information if needed.

Sincerely

Helene Georget
Print Manager
